

Beauty tips for the big day.....

When choosing your hairstyle for the big day, make sure to think about your wedding location (windy, humid, etc.) Take a look at the local forecast before you leave and see if it will have an effect on your chosen style.

If you had your manicure and pedicure at home before you departed make sure to take some touch up nail polish with you, just in case.

Take make-up with you that stands up to the Caribbean climate.

Upon arrival at the hotel seek out the beauty salon and have them do a test run on your hair to make sure you get the look you want.

You will likely be at your resort enjoying the weather and beach a few days before your wedding, so make sure you lather on the sunscreen to help prevent sun burnt wedding photos.

On the day of your wedding make sure to wear water proof mascara!
